**Crenshaw Northern Extension Meetings**

Metro has a plan to make it easier to get around with dozens of public transit projects.

The Crenshaw Northern Extension will serve communities from the LAX area, South L.A., Inglewood, Crenshaw, Mid City, Central L.A., West Hollywood and Hollywood, and allow for further connections in the San Fernando Valley.

Metro is kicking off the environmental review process with a “scoping” period, during which Metro takes public comment to help identify issues the project will address.

A self-guided presentation, as well as video recordings of the scoping meetings, will also be available at [metro.net/crenshawnorth](http://metro.net/crenshawnorth).
